Professional Summary

Full Stack App Developer specializing in cross platform mobile applications and REST API integration. Experienced in developing scalable Flutter applications using BLoC State Management, Firebase, Node.js, Express.js, and MongoDB. Passionate about building production-ready mobile apps with clean architecture and responsive UI.

Education

B. Tech in Computer Science and Business System

KIT's College of Engineering, Kolhapur | *CGPA: 8.09* 2024–2027

Diploma in Information Technology

Government Polytechnic Ambad, Jalna | *Percentage: 86.94%* 2021–2024

Class X (SSC)

Z. P. High School, Chhatrapati Sambhajinagar | *Percentage: 85.40%* 2020–2021

Technical Skills

Languages: Core Java, Dart, JavaScript, SQL

Frameworks: Flutter, Node.js, Express.js, BLoC (State Management)

Backend: Node.js, Express.js, REST APIs, JWT, Firebase

Database: PostgreSQL, MongoDB, SQLite

Cloud & Deployment: Vercel, Render, Railway

Tools & IDE: Postman, Git, GitHub, Cloudinary, Android Studio, VS Code

Projects

Yatrikaa – Travel Companion App | [GitHub](#) March 2026

Tech-Stack: Flutter, BLoC, Node.js, Express.js, MongoDB, Firebase, JWT, Google Places API, OpenTripMap API, Render

- Built a **full-stack travel platform** for destination discovery, trip planning, bookings, and community interactions.
- Integrated **Google Places** and **OpenTripMap APIs** to deliver real-time location-based travel recommendations.
- Developed secure **REST APIs** with **Firebase Auth**, **JWT**, and **role-based access control** for scalable backend services.
- Implemented **image uploads**, **Notifications**, and **State management** to enhance user experience and application scalability.

GuruConnect – Smart Mentorship Platform | [GitHub](#) Jan 2026

- Contributed as a Backend Developer in developing a smart mentorship platform for students and industry mentors.
- Developed REST APIs, JWT-based authentication, session management, and backend logic using Node.js and Express.js.
- Implemented mentor booking workflows, Razorpay payment integration, and scalable MongoDB database integration.
- Worked on mentor verification, session booking, nearby/global mentor discovery, and Zoom API integration.

Achievements

Second Rank - MindSpark State-Level Project Exhibition March 2023

Achieved 2nd place for developing a Faculty Feedback Management System for educational institutes. Recognized for innovative problem-solving, project presentation, and technical implementation skills.

Experience & Leadership

Android Developer Trainee — Mountreach Solution Pvt. Ltd. Jun 2023–Jul 2023

Worked on an Android application project named “Diploma Helper” during industrial training. Gained hands-on experience in mobile application development, UI design, and application workflows while improving problem-solving and software development skills.

Campus Mantri — GeeksforGeeks Jan 2026-Jun 2026

Selected as Campus Mantri at GeeksforGeeks to promote technical learning and community engagement within the campus. Assisted in organizing technical events, workshops, and student outreach activities while helping peers explore coding and development resources.
